

MIND MAPPING

Mind Maps are used for:

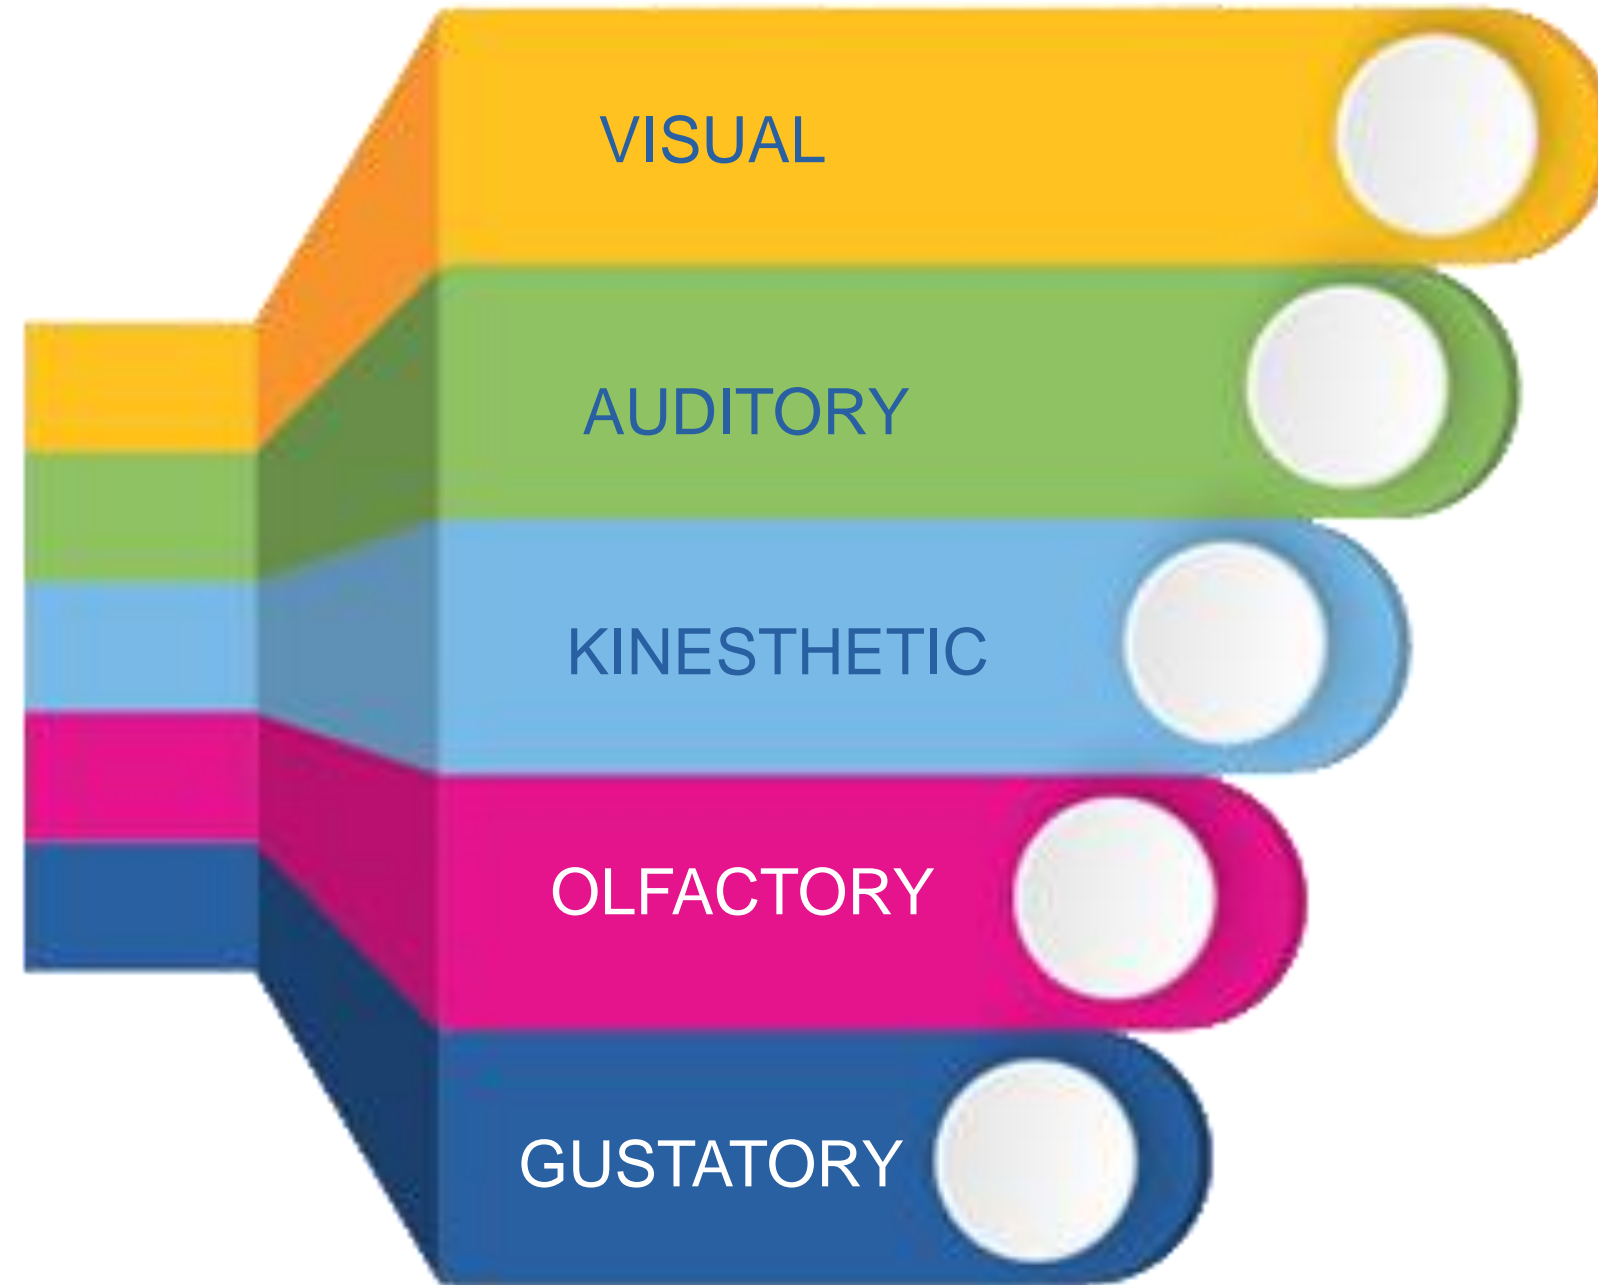

- Visual thinking
- Radiant thinking

Close your eyes and think about your first
day at work, college or at school!

We experience the world through:

For human beings, VISUALS
is the most dominant sense
of thinking.

MIND MAPPING

Without colour

Linear fashion

Hierarchical

Organized

Structured

What is metacognition?

Metacognition is the ability to recognize something as a whole rather than its parts.

E.g. Recognizing faces

Q/A Time

History of Mind Maps

- very old idea technically
- formerly used as a tool by Tony Buzan
- In the 1980s
- he was taking notes as a student in university
- he enquired why it was needed to take notes in a hierarchical linear fashion

What does a mind map look like?

Uses of Mind Maps

- Capturing Information
- Dealing with information

Challenges of Mind Maps

- They are boring
- We are able to establish only hierarchical concepts
- Can't establish overview
- Not accepted widely
- Shallow topic

ACTIVIT Y

Draw a Mind Map on any topic!
